

The attached document contains a new Request for Proposal (RFP) from Pfizer’s Global Medical Grants program. While Pfizer recognizes many institutions and healthcare professionals around the globe are prioritizing challenges associated with the COVID-19 pandemic, we are cognizant that the healthcare and patient community will continue to benefit from ongoing support for research, improvement science, and education in spite of this crisis. It is in this spirit that Pfizer will continue our grants program by publishing RFPs that have been planned for 2020.

Thank you in advance for all that you are doing to improve the care of patients. Pfizer is proud to be able to support these efforts through this grants program.

Please contact the Global Medical Grants team at [GMG@pfizer.com](mailto:GMG@pfizer.com) if you have any questions or would like to be temporarily removed from our mailing list.

## **I. Background**

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the knowledge gaps as outlined in the specific RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.

## II. Eligibility

<b>Geographic Scope:</b>	Japan
<b>Applicant Eligibility Criteria</b>	<ul style="list-style-type: none"> <li>• The following may apply: medical, dental, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.</li> <li>• If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. all institutions must have a relevant role and the requesting organization must have a key role in the project.</li> <li>• For projects offering continuing education credit, the requesting organization must be accredited.</li> </ul>

## III. Requirements

<b>Date RFP Issued</b>	April 20, 2020
<b>Clinical Area</b>	Inflammatory Bowel Disease (IBD)
<b>General Area of Interest for this RFP:</b>	<p>The increasing number of IBD patients in Japan has resulted in issues including a concentration of patients at a limited number of institutions specializing in IBD treatment as well as increasing diversification of the patient population.</p> <p>Important means of addressing these issues include constructing cooperative networks among IBD specialized facilities and non-specialized facilities, training specialists and medical staff in IBD treatment, and coordinating with different departments involved in IBD treatment. Through this public invitation, we aim to support educational programs designed to fill the “Knowledge Gap” in these means.</p> <p>This medical education project does not necessarily have to be a collective format.</p>

<p><b>Target Audience:</b></p>	<p>The intent of this grant opportunity is to support educational programs for all health care professionals involved in the etiology, diagnosis, treatment and management of IBD patients.</p> <p><i>The general public and/or patients are not applicable.</i></p>
<p><b>Expected Approximate Monetary Range of Grant Applications:</b></p>	<p>Individual projects requesting up to 3,000,000 yen will be considered.</p>
