

The attached document contains a new Request for Proposal (RFP) from Pfizer's Global Medical Grants program. While Pfizer recognizes many institutions and healthcare professionals around the globe are prioritizing challenges associated with the COVID-19 pandemic, we are cognizant that the healthcare and patient community will continue to benefit from ongoing support for research, improvement science, and education in spite of this crisis. It is in this spirit that Pfizer will continue our grants program by publishing RFPs that have been planned for 2020.

Thank you in advance for all that you are doing to improve the care of patients. Pfizer is proud to be able to support these efforts through this grants program.

Please contact the Global Medical Grants team at GMG@pfizer.com if you have any questions or would like to be temporarily removed from our mailing list.

Pfizer Announces

Advances in Oncology Therapy in Renal Cell Carcinoma

Competitive Grant Program - internal Pfizer review process

日本語版はこちらをクリックしてください。↓

Note this RFP is also available in [Japanese](#) for your convenience

I. Background

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the knowledge gaps as outlined in the specific RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.

II. Eligibility

Geographic Scope:	Japan
Applicant Eligibility Criteria	<ul style="list-style-type: none"> The following may apply: medical, dental, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement. If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. all institutions must have a relevant role and the requesting organization must have a key role in the project. For projects offering continuing education credit, the requesting organization must be accredited.
