

Pfizer Announces a Quality Improvement RFP in Canada Adoption of Biosimilars in Oncology

Competitive Grant Program - internal Pfizer review process

I. Background

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the practice gaps as outlined in the specific RFP.

For all independent quality improvement grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct or monitoring of the quality improvement program.

NOTE: A French translation of this RFP can be found <u>here.</u>

II. Eligibility

Geographic Scope:	Canada only
Applicant Eligibility Criteria	 The following may apply: medical, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; patient advocacy groups, and other entities with a mission related to healthcare professional education and/or healthcare improvement.
	 If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. All institutions must have a relevant role and the requesting organization must have a key role in the project.
	 For projects offering continuing education credit, the requesting organization must be accredited.

III. Requirements

Date RFP Issued	December 1, 2020
Clinical Area	Oncology – Biosimilars in Hematologic Malignancies, Solid Tumours & Supportive Care
General Area of Interest for this RFP:	The aim of this RFP is to support up to three Quality Improvement (QI) projects that will support the safe and effective adoption and utilization of biosimilars in oncology. Proposals that directly measure biosimilar adoption or improve safety, value and efficiency in oncology practices will be prioritized. The sustainability and broad applicability of the approach will be key factors in evaluating funded projects.
	Pfizer encourages proposals addressing any of the following (not inclusive):
	 Quality of care and best practices around the appropriate use of biosimilars
	 Quality of care and best practices around the perceptions of biosimilars
	 Quality/Process improvement projects that impact efficiency and resource utilization

	 Educational tools for providers, nurses, pharmacists, administrative units
	Pharmacy and Therapeutic Committee processes
	Pharmacy practices that improve the safety or use of biosimilars
	Electronic medical records and integration of biosimilars
	Tools impacting prescribing behaviors
	Clinical pathway development
	Challenges related to payer mandates/insurance issues
	Optimization and integration of processes
	 Value/Quality/Cost for patients, clinicians and institutions
	It is not our intent to support clinical research projects. Projects evaluating the efficacy of therapeutic or diagnostic agents will not be considered.
Target Audience:	 Medical oncologists, pharmacists, nurses, nurse practitioners, physician assistants and other healthcare professionals, and patients.
Expected Approximate Monetary Range of Grant Applications:	 Individual projects requesting up to \$50,000 CAD will be considered. The estimated total available budget related to this RFP is \$150,000 CAD.
Key Dates:	RFP release date: December 1, 2020
	Grant Application due date: February 16, 2021
	Please note the deadline is 23:59 Eastern Standard Time (e.g. New York, GMT -5).
	Anticipated Grant Award Notification Date: March 30, 2021
	Grants will be distributed following a fully executed agreement.
	 Anticipated Project Start and End Dates: May 2021 to May 2022 (projects may be longer or shorter than this anticipated timeline)

How to Submit:	 Please go to <u>www.cybergrants.com/pfizer/Ql</u> and sign in. First-time users should click "Create your password". In the application: For the question "Are you replying to a Request for Proposal as part of the Competitive Grant Program?" select Yes Select the following Competitive Grant Program Name: 2020 Oncology– Canada Adoption of Biosimilars in Oncology Select the following Primary Area of Interest: Oncology – General Requirements for submission: Complete all required sections of the online application and upload your project proposal (see Appendix) in the Full Proposal Submission field. If you encounter any technical difficulties with the website, please click the "Technical Questions" link at the bottom of the page. IMPORTANT: Be advised applications submitted after the due date will not be reviewed by the committee.
Questions:	 If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Jacqueline Waldrop (<u>Jacqueline.Waldrop@pfizer.com</u>), with the subject line "Adoption of Biosimilars in Oncology".
Review and Approval Process	 Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.
Mechanism by which Applicants will be Notified:	 All applicants will be notified via email by the dates noted above. Applicants may be asked for additional clarification during the review period.

Appendix A

Quality Improvement Project Full Proposal

Applications will be accepted via the online portal. Full Proposal documents should be no longer than 10-15 pages in length (12-point font and 1-inch margins) excluding Organization Detail and References. When uploading your Full Proposal please ensure it addresses the following*:

Goals and Objectives	 Briefly state the overall goal of the project. Also describe how this goal aligns with the focus of the RFP and the goals of the applicant organization(s). List the <i>overall</i> objectives you plan to meet with your project both in terms of learning and expected outcomes. Objectives should describe the target population as well as the outcomes you expect to achieve as a result of conducting the project.
Assessment of Need for the Project	• Please include a quantitative baseline data summary, initial metrics (e.g., quality measures), or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in <i>your</i> target area. Describe the source and method used to collect the data. Describe how the data was analyzed to determine that a gap existed. If a full analysis has not yet been conducted, please include a description of your plan to obtain this information.
Target Audience	 Describe the primary audience(s) targeted for this project. Also indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population
Project Design and Methods	 Describe the planned project and the way it addresses the established need. If your methods include educational activities, please describe succinctly the topic(s) and format of those activities
Innovation	 Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects or materials already developed. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project.
Evaluation and Outcomes	 In terms of the metrics used for the needs assessment, describe how you will determine if the practice gap was addressed for the target group. Describe how you expect to collect and analyze the data. Quantify the amount of change expected from this project in terms of your target audience.

	 Describe how the project outcomes will be broadly disseminated.
Anticipated Project Timeline	 Provide an anticipated timeline for your project including project start/end dates
Additional Information	 If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here
Organization Detail	• Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project.

*The online application also includes the fields noted above. The text in those fields should be the same text that is included in your Full Proposal document.
