Pfizer Announces 2021 Shareholder Meeting Results

NEW YORK, April 22 – Pfizer Inc. (NYSE: PFE) today held its Annual Meeting of Shareholders in a virtual-only format. Preliminary results from the Annual Meeting indicate that the company’s 12 director nominees were re-elected to one-year terms and that shareholders ratified the selection of KPMG LLP as Pfizer’s independent registered public accounting firm for the 2021 fiscal year. In addition, shareholders supported the board-sponsored proposal to approve, on an advisory basis, the compensation of the company’s named executive officers.

In other voting, shareholders did not support the three shareholder-sponsored proposals.

“2020 was a year like none other in Pfizer’s history, defined by bold decisions, even bolder actions and breakthrough results. With the completion of the Upjohn-Mylan transaction, we saw the culmination of a decade-long transformation of Pfizer from a large, diversified enterprise to a smaller, science-driven, innovative biopharma company more focused than ever on delivering first-in-class science for the benefit of patients; and through our collaboration with BioNTech, we delivered a breakthrough COVID-19 vaccine in less than a year,” stated Albert Bourla, Pfizer Chairman and Chief Executive Officer.

He continued, “Looking ahead, we remain focused on being nimble and are confident in our ability to grow based of the strength of both our current product portfolio and our R&D pipeline, while continuing to pursue potential opportunities to enhance our long-term growth prospects.”
The final results are subject to verification by the independent inspectors of election. The final results will be reported on a Current Report on Form 8-K to be filed by Pfizer with the U.S. Securities and Exchange Commission in the next few days.

**About Pfizer: Breakthroughs That Change Patients’ Lives**

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development and manufacture of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments and cures that challenge the most feared diseases of our time. Consistent with our responsibility as one of the world’s premier innovative biopharmaceutical companies, we collaborate with health care providers, governments and local communities to support and expand access to reliable, affordable health care around the world. For more than 170 years, we have worked to make a difference for all who rely on us. We routinely post information that may be important to investors on our website at www.Pfizer.com. In addition, to learn more, please visit us on www.Pfizer.com and follow us on Twitter at @Pfizer and @Pfizer News, LinkedIn, YouTube and like us on Facebook at Facebook.com/Pfizer.

**Disclosure Notice:** The information contained in this release is as of April 22, 2021. The Company assumes no obligation to update forward-looking statements contained in this release as the result of new information or future events or developments.

This release contains forward-looking statements about the Company’s growth potential and strategy, product portfolio, R&D pipeline and actions to enhance shareholder value, including their potential benefits, that involves substantial risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. Risks and uncertainties include, among other things, the uncertainties inherent in research and development, including the ability to meet anticipated clinical endpoints, commencement and/or completion dates for our clinical trials, regulatory submission dates, regulatory approval dates and/or launch dates, as well as the possibility of unfavorable new clinical data and further analyses of existing clinical data; risks associated with interim and preliminary data; the risk that clinical trial data are subject to differing interpretations and assessments by regulatory authorities; whether regulatory authorities will be satisfied with the design of and results from our clinical studies; whether and when any drug applications, biologics license applications and/or
emergency use authorization applications may be filed in any jurisdictions for any potential indication for Pfizer’s product candidates; whether and when any such applications that may be filed for any of Pfizer’s product candidates may be approved by regulatory authorities, which will depend on myriad factors, including making a determination as to whether the product’s benefits outweigh its known risks and determination of the product’s efficacy and, if approved, whether any such product candidates will be commercially successful; decisions by regulatory authorities impacting labeling, manufacturing processes, safety and/or other matters that could affect the availability or commercial potential of Pfizer’s product candidates, including development of products or therapies by other companies; manufacturing capabilities or capacity; uncertainties regarding the ability to obtain recommendations from vaccine technical committees and other public health authorities and uncertainties regarding the commercial impact of any such recommendations; the uncertainties inherent in business and financial planning, including, without limitation, risks related to Pfizer’s business and prospects, adverse developments in Pfizer’s markets, or adverse developments in the U.S. or global capital markets, credit markets, regulatory environment or economies generally; the impact of COVID-19 on our business, operations and financial results; and competitive developments.

A further description of risks and uncertainties can be found in Pfizer’s Annual Report on Form 10-K for the fiscal year ended December 31, 2020 and in its subsequent reports on Form 10-Q, including in the sections thereof captioned “Risk Factors” and “Forward-Looking Information and Factors That May Affect Future Results”, as well as in its subsequent reports on Form 8-K, all of which are filed with the U.S. Securities and Exchange Commission and available at www.sec.gov and www.pfizer.com.
