

Pfizer Announces a [Research Grant RFP](#)

Data generation on the treatment of Metastatic Breast Cancer with CDK 4/6 inhibitors

Competitive Grant Program- using Expert Review Panel

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a specific area of interest, sets timelines for review and approval, and uses an expert review panel (ERP) to make final grant decisions. Organizations are invited to submit an application addressing the specific gaps in research, practice or care as outlined in the specific RFP.

For all Investigator Sponsored Research (ISRs) and general research grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, sponsorship, and conduct of the independent initiative supported by the grant, including compliance with any regulatory requirements. Pfizer must not be involved in any aspect of study protocol or project development, nor the conduct or monitoring of the research program.

Competitive Grant Program Eligibility

Geographic Scope	<ul style="list-style-type: none"> Portugal
Applicant Eligibility Criteria	<p>To be eligible:</p> <ul style="list-style-type: none"> The institution and principal investigator (PI) must be based in the eligible country noted above. Only organizations are eligible to receive grants, not individuals or medical practice groups. The applicant (PI) must have a medical or postdoctoral degree (MD, PhD, or equivalent), an advanced nursing degree (BSN with a MS/PhD), or a degree in Pharmacy, Physiotherapy, or Healthcare related degree. Applicant must be affiliated with a host institution Both early career and experienced investigators are encouraged to apply, and consideration will be given to all proposals meeting the selection criteria

Requirements

Date RFP Issued	<ul style="list-style-type: none"> 19 May 2021
Clinical Area	<ul style="list-style-type: none"> Oncology - Metastatic Breast Cancer
Area of Interest Focus	<p>The intent of this Request for Proposal (RFP) is to support research projects with the intent to increase medical knowledge and generate data on the treatment of Metastatic Breast Cancer (mBC) with CDK 4/6 inhibitors:</p> <ul style="list-style-type: none"> To generate Real World Data (RWD) from the real clinical experience with CDK 4/6 inhibitor treatment of mBC; To generate data on Patient Reported Outcomes (PRO) evaluating safety and/or efficacy of treatment in a special population with mBC; To support preclinical and/or clinical initiatives to generate data on new treatment strategies with CDK 4/6 inhibitors in mBC.
Expected Approximate Monetary Range of	<ul style="list-style-type: none"> Individual projects requesting up to €25 000 will be considered. Pfizer anticipates awarding up to 2 grants

Grant Applications	<ul style="list-style-type: none"> The amount of the grant Pfizer will be prepared to fund for any project will depend upon the expert review panel's evaluation of the proposal and costs involved, and will be stated clearly in the approval notification
Key Dates	<ul style="list-style-type: none"> RFP release date: 19 May 2021 Grant Application due date: *15 July 2021 *Please note the deadline is 23:59 Eastern Time (New York, GMT -5) Review of Full Proposals by ERP: August 2021 <p>Anticipated Full Proposal Notification Date: September 2021</p>
How to Apply	<ul style="list-style-type: none"> Please go to www.cybergrants.com/pfizer/Research and sign in. First-time users should click "Create your password". <p>Requirements for submission:</p> <ul style="list-style-type: none"> Select the following Competitive Grant Program Name: 2021 Oncology L – Portugal Metastatic Breast Cancer Research Complete all required sections of the online application. See Appendix A for additional details If you encounter any technical difficulties with the website, please click the "Technical Questions" link at the bottom of the page
Questions:	<ul style="list-style-type: none"> If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Ai Ping Lee [AiPing.Lee@pfizer.com], with the subject line "RFP – Portugal Metastatic Breast Cancer Research". Please click here to view Frequently Asked Questions regarding the Competitive Grant Program.
Grant Agreements:	<ul style="list-style-type: none"> If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click here to view the core terms of the agreement. Pfizer has drafted the terms of these agreements to be balanced and reasonable and to further the goals of both parties. Negotiating grant agreements requires significant resources, so please ensure that your institution (including your legal department) is able and willing to abide by these terms before proceeding with submission of your application as they will need to be accepted in their entirety.
Review and Approval Process	<ul style="list-style-type: none"> Grant requests received in response to a specific RFP are reviewed by an expert review panel (ERP) to make final grant decisions. The panels are comprised of professionals from the medical community with advanced degrees and expertise in particular clinical areas, or specific needs of a geographic region/learner group, or expertise in research, continuing professional development or quality improvement

Mechanism by which Applicants will be Notified:

- All applicants will be notified via email by the dates noted above
- Applicants may be asked for additional clarification during the review period

Appendix A Full Proposal/Protocol

Applications will be accepted via the online portal. Full Proposal/Protocol documents should be no longer than 10-15 pages in length (12-point font and 1-inch margins) excluding Organization Detail and References. When uploading your Full Proposal/Protocol please ensure it addresses the following:

Goals and Objectives	<ul style="list-style-type: none"> Provide the main goal of the study and the study population (if applicable). Provide a detailed definition that is directly linked to the primary objective
Assessment of Need for the Project	<ul style="list-style-type: none"> This should reflect your study rationale. Provide a brief description of the medical/scientific question and the rationale of how this trial or study addresses the question
Target Audience	<ul style="list-style-type: none"> Describe the primary audience(s) targeted for this project. For Investigator Sponsored Clinical Trials, please specify the age, gender and other demographic information for trial population Also indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population
Project Design and Methods	<ul style="list-style-type: none"> Describe concisely the research design and methods for achieving the stated goals. For a clinical interventional study, include inclusion/exclusion criteria, treatment plan and statistical plan
Innovation	<ul style="list-style-type: none"> Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project
Evaluation and Outcomes	<ul style="list-style-type: none"> Specify type and frequency of safety, efficacy, and/or outcome measures. Also indicate the method(s) used to assess measures Provide a publication plan describing intended submission of abstracts to (a) congress(es) or intended submission of (a) publication(s) to peer-reviewed journals. All publications must follow ICH guidelines
Anticipated Project Timeline	<ul style="list-style-type: none"> Provide an anticipated timeline for your project including project start/end dates
Additional Information	<ul style="list-style-type: none"> If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here Early-career applicants: Letter(s) of support from mentor(s) and collaborators describing how the award will advance the applicant's

	career.
Organization Detail	<ul style="list-style-type: none">• This information is used to assess the capability of the organizational resources available to perform the effort proposed. Identify the facilities to be used [laboratory, animal, clinical and “other”]. If appropriate, indicate their capacities, pertinent capabilities, relative proximity and extent of availability to the project
References	<ul style="list-style-type: none">• Bibliography of relevant references.
