

Pfizer Announces a Quality Improvement Grant RFP

Appropriate Immunization among Patients with Immune-Mediated Inflammatory Diseases (IMIDs) Competitive Grant Program - internal Pfizer review process

I. Background

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the practice gaps as outlined in the specific RFP.

For all independent quality improvement grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct or monitoring of the quality improvement program.

II. Eligibility

Geographic Scope:	Global (excluding the US)
Applicant Eligibility Criteria	 The following may apply: medical, dental, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.
	 If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. All institutions must have a relevant role and the requesting organization must have a key role in the project.
	 For projects offering continuing education credit, the requesting organization must be accredited. However, please note that we do not anticipate supporting projects that are ONLY educational in nature, as the intent here is to support QI efforts.

III. Requirements

Date RFP Issued	• June 1, 2021
Clinical Area	Gastroenterology, Dermatology, Rheumatology
General Area of Interest for this RFP:	The aim of this RFP is to support the care of patients with Immune Mediated Inflammatory Diseases (IMIDs), including patients under traditional immunosuppressive therapies and advanced therapies, aiming to reduce the impact of vaccine-preventable diseases by improving or facilitating appropriate vaccination practices or/and addressing gaps in vaccination status in those patients.
	 Through this RFP Pfizer will support Quality and/or Process improvement projects or medical education / patient awareness initiatives aiming to address the vaccination needs and gaps among patients with IMIDs. Below is a list of possible project types:
	 Assessment of gaps in guideline-concordant vaccination practices – development of programs to effectively address those gaps Empower medical specialists (Dermatologists, Gastroenterologists, Rheumatologists) in their role of providing recommendation/advice of vaccines in real clinical practice Multidisciplinary vaccination care planning including efforts for organizational improvement towards vaccination team

	building, continuous monitoring, track progress, sharing feedback among vaccination Team Targeted education for providers and/or patients (clinic-based, community-based), within the construct of a measurable QI initiative Addressing system-oriented issues that impact vaccination practices Mitigating equity and access barriers to vaccination for underserved patient populations including patients who have experienced health- and/or healthcare disparities (i.e., secondary to social determinants of health) Projects which entail systematic and continuous actions able to demonstrate measurable outcomes via methodologically rigorous methods will be given the highest priority. Priority will also be given to projects that address patients who are part of a medically underserved population; this is defined as patients who have experienced health and/or healthcare system disparities secondary to social determinants of health. Priority will also be given to projects with the maximum likelihood to directly address patient vaccination needs, as demonstrated through measurable outcomes. Please NOTE: It is not our intent to support research projects. Projects evaluating the efficacy of therapeutic or diagnostic agents will not be considered. Proposals will not be supported if related to vaccine supply, distribution, preservation / storage, or coverage of vaccine acquisition cost.
Target Audience:	Organizations/Institutions caring for patients diagnosed with IMIDs (Rheumatological, gastroenterological, or other dermatological diseases)
Expected Approximate Monetary Range of Grant Applications:	Individual projects requesting up to \$150,000 USD will be considered. We anticipate funding up to 5 projects.
Key Dates:	RFP release date: June 1, 2021
	Grant Application due date: July 12, 2021
	Please note the deadline is 23:59 Eastern Standard Time (e.g. New York, GMT -5).
	Anticipated Grant Award Notification Date: August 2021
	Grants will be distributed following a fully executed agreement.
	Anticipated Project Start and End Dates: on or after August 31, 2021
the state of the s	

How to Submit:	 Please go to <u>www.cybergrants.com/pfizer/Ql</u> and sign in. First-time users should click "Create your password".
	In the application:
	 For the question "Are you replying to a Request for Proposal as part of the Competitive Grant Program?" select Yes
	 Select the following Competitive Grant Program Name: 2021 – I&I G – Appropriate Immunization in IMID Patients
	Requirements for submission:
	Complete all required sections of the online application and upload your project proposal (see Appendix) in the Full Proposal Submission field.
	 If you encounter any technical difficulties with the website, please click the "Technical Questions" link at the bottom of the page.
	IMPORTANT: Be advised applications submitted after the due date will not be reviewed by the committee.
Questions:	If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Amanda Solis (amanda.solis@pfizer.com), with the subject line "Appropriate Immunization in IMID Patients."
Grant Agreements:	 If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click here to view the core terms of the agreement. Pfizer has drafted the terms of these agreements to be balanced and reasonable and to further the goals of both parties. Negotiating grant agreements requires significant resources, so please ensure that your
	institution (including your legal department) is able and willing to abide by these terms before proceeding with submission of your application as they will need to be accepted in their entirety.
Review and Approval Process:	Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.
Mechanism by which Applicants will be Notified:	 All applicants will be notified via email by the dates noted above. Applicants may be asked for additional clarification during the review period.

Appendix A

Quality Improvement Project Full Proposal

Applications will be accepted via the online portal. Full Proposal documents should be no longer than 10-15 pages in length (12-point font and 1-inch margins) excluding Organization Detail and References. When uploading your Full Proposal please ensure it addresses the following*:

Goals and Objectives	 Briefly state the overall goal of the project. Also describe how this goal aligns with the focus of the RFP and the goals of the applicant organization(s).
	 List the overall objectives you plan to meet with your project both in terms of learning and expected outcomes. Objectives should describe the target population as well as the outcomes you expect to achieve as a result of conducting the project.
Assessment of Need for the Project	 Please include a quantitative baseline data summary, initial metrics (e.g., quality measures), or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in <i>your</i> target area. Describe the source and method used to collect the data. Describe how the data was analyzed to determine that a gap existed. If a full analysis has not yet been conducted, please include a description of your plan to obtain this information.
Target Audience	Describe the primary audience(s) targeted for this project. Also indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population
Project Design and Methods	 Describe the planned project and the way it addresses the established need.
	 If your methods include educational activities, please describe succinctly the topic(s) and format of those activities
Innovation	 Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects or materials already developed.
	 Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project.
Evaluation and Outcomes	 In terms of the metrics used for the needs assessment, describe how you will determine if the practice gap was addressed for the target group. Describe how you expect to collect and analyze the data.
	 Quantify the amount of change expected from this project in terms of your target audience.

Appropriate Immunization in IMID Patients

	Describe how the project outcomes will be broadly disseminated.
Anticipated Project Timeline	Provide an anticipated timeline for your project including project start/end dates
Additional Information	If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here
Organization Detail	Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project.

^{*}The online application also includes the fields noted above. The text in those fields should be the same text that is included in your Full Proposal document.
