Pfizer Announces a Quality Improvement Grant RFP

Establishment of System for Early Detection of Atrial Fibrillation and Prevention of Cardiogenic Embolism

Competitive Grant Program - internal Pfizer review process

Note this RFP is also available in Japanese for your convenience

I. Background

Pfizer Global Medical Grants (GMG) supports the global healthcare community’s independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer’s medical and/or scientific strategies.

Pfizer’s GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the practice gaps as outlined in the specific RFP.

For all independent quality improvement grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct or monitoring of the quality improvement program.

February 2022
II. Eligibility

**Geographic Scope:** Japan

**Applicant Eligibility Criteria**
- The following may apply: medical, dental, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.
- If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. All institutions must have a relevant role and the requesting organization must have a key role in the project.

III. Requirements

**Date RFP Issued**
- April 7, 2022

**Clinical Area**
- Atrial fibrillation (AF) and cardiogenic embolism

**General Area of Interest for this RFP:**
- It is our intent to support projects that promote behavioral change of healthcare providers to improve situations such as i) medical and scientific knowledge are not put into practice, ii) medical and scientific knowledge are put into practice but do not exert sufficient results. Therefore, projects including construction of a system/organization to put the knowledge into practice and/or to lead to results would be eligible for the support.
- Note that educational projects aiming for an enhancement of knowledge are out of scope of this program.
- Examples of proposals are as follows,
  - A project to develop a regional partnership system to promote early detection and treatment of undiagnosed AF
  - A project to promote developing and disseminating of a healthcare partnership system and screening method aiming for diagnosis rate improvement for AF
  - A project to develop a healthcare partnership system to lead AF patients/ AF-suspected patients from a medical check up to specialists.
  - A project to develop a healthcare partnership system to family doctors can promote early detection and appropriate treatment of AF.
  - A project to develop a system promoting appropriate anticoagulant therapy to prevent cardiogenic embolism.
  - A project to promote a regional healthcare partnership to improve

**Target Audience:**
- Primary care providers, allied healthcare professionals (i.e., nurses or pharmacists), Specialists (e.g., cardiologists, hematologists, internists, neurologists, neurosurgeons, nephrologists, geriatricians), and other healthcare professionals involved in the care of patients with CV disease.

**Expected Approximate Monetary Range of Grant Applications:**
- Individual projects requesting up to 10,000,000 JPY will be considered.

**Key Dates:**
- RFP release date: April 7, 2022
- Grant Application due date: August 12, 2022
  - Please note the deadline is 23:59 Eastern Standard Time (e.g., New York, GMT -5).
- Anticipated Grant Award Notification Date: October
- Grants will be distributed following a fully executed agreement.
- Anticipated Project Start and End Dates: January 1, 2023 to December 31, 2024

**How to Submit:**
- Please go to [www.cybergrants.com/pfizer/QI](http://www.cybergrants.com/pfizer/QI) and sign in. First-time users should click “Create your password”.
- Click the “Start A New Quality Improvement Application” button.
- In the application:
  - For the question “Competitive Grant?” select Yes
  - Select the following Competitive Grant Program Name: 2022 IM JP: Early Detection of AF and Prevention of Cardiogenic Embolism
  - Select the following Primary Area of Interest: CVM – Anticoagulation (AFIB,VTE)
- Requirements for submission:
  - Complete all required sections of the online application and upload your project proposal (see Appendix) in the Full Proposal Submission field.
  - If you encounter any technical difficulties with the website, please click...
Establishment of System for Early Detection of Atrial Fibrillation and Prevention of Cardiogenic Embolism

**Questions:**

- If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Akihiro Kamina (meg.japan@pfizer.com), with the subject line “2022 IM JP: Early Detection of AF and Prevention of Cardiogenic Embolism”.

**Grant Agreements:**

- If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click [here](#) to view the core terms of the agreement.
- Pfizer has drafted the terms of these agreements to be balanced and reasonable and to further the goals of both parties. Negotiating grant agreements requires significant resources, so please ensure that your institution (including your legal department) is able and willing to abide by these terms before proceeding with submission of your application as they will need to be accepted in their entirety.

**Review and Approval Process:**

- Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.

**Mechanism by which Applicants will be Notified:**

- All applicants will be notified via email by the dates noted above.
- Applicants may be asked for additional clarification during the review period.

**IMPORTANT:** Be advised applications submitted after the due date will not be reviewed by the committee.
Applications will be accepted via the online portal. Full Proposal documents should be no longer than 10-15 pages in length (12-point font and 1-inch margins) excluding Organization Detail and References. When uploading your Full Proposal please ensure it addresses the following:

### Goals and Objectives
- Briefly state the overall goal of the project. Also describe how this goal aligns with the focus of the RFP and the goals of the applicant organization(s).
- List the overall objectives you plan to meet with your project both in terms of learning and expected outcomes. Objectives should describe the target population as well as the outcomes you expect to achieve as a result of conducting the project.

### Assessment of Need for the Project
- Please include a quantitative baseline data summary, initial metrics (e.g., quality measures), or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area. Describe the source and method used to collect the data. Describe how the data was analyzed to determine that a gap existed. If a full analysis has not yet been conducted, please include a description of your plan to obtain this information.

### Target Audience
- Describe the primary audience(s) targeted for this project. Also indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population.

### Project Design and Methods
- Describe the planned project and the way it addresses the established need.
- If your methods include educational activities, please describe succinctly the topic(s) and format of those activities.

### Innovation
- Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects or materials already developed.
- Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project.

### Evaluation and Outcomes
- In terms of the metrics used for the needs assessment, describe how you will determine if the practice gap was addressed for the target group. Describe how you expect to collect and analyze the data.
### Anticipated Project Timeline
- Quantify the amount of change expected from this project in terms of your target audience.

- Provide an anticipated timeline for your project including project start/end dates.

### Additional Information
- If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here.

### Organization Detail
- Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project.

### Budget Detail
- While estimating your budget please keep the following items in mind:
  - General organizational running costs such as insurances, heating, lighting, rent, building maintenance may be included. Pfizer does not provide funding for capital purchases (infrastructure expenses such as equipment, purchases of software or software licenses, technology or bricks and mortar). Equipment hire/leasing is acceptable and may be included in project budget.
  - The inclusion of these costs cannot cause the amount requested to exceed the budget limit set forth in the RFP.
  - It should be noted that grants awarded through GMG cannot be used to purchase Pfizer therapeutic agents (prescription or non-prescription).
  - Pfizer maintains a company-wide, maximum allowed overhead rate of 28% for independent studies and projects. Please [click here](#) for details.

*The online application also includes the fields noted above. The text in those fields should be the same text that is included in your Full Proposal document.*
