American Society of Gene + Cell Therapy and Pfizer Announce a
Independent Medical Education Grant RFP

Gene and Gene-modified Cell Therapies
Medical Education
Competitive Grant Program

I. Introduction

This Request for Proposals (RFP) is for initiatives that span multiple rare disease areas. The American Society of Gene + Cell Therapy and Pfizer Global Medical Grants are collaborating to offer a new competitive grant opportunity focused on supporting independent medical education to increase the medical and scientific understanding of gene and gene-modified cell therapies.

About the American Society of Gene + Cell Therapy (ASGCT)

The mission of ASGCT is to advance knowledge, awareness, and education leading to the discovery and clinical application of genetic and cellular therapies to alleviate human disease. ASGCT’s strategic vision is to be a catalyst for bringing together scientists, physicians, patient advocates, and other stakeholders to transform the practice of medicine by incorporating the use of genetic and cellular therapies to control and cure human disease.

About Pfizer Global Medical Grants (GMG):

Pfizer Global Medical Grants (GMG) supports the global healthcare community’s independent initiatives (e.g., research, quality improvement or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer’s medical and/or scientific strategies.

Pfizer’s GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a specific area of interest, sets timelines for review and approval, and uses an expert review panel (ERP) to make final grant decisions. Organizations are invited to submit an application addressing the specific gaps in education as outlined in the RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.
## II. Eligibility

<table>
<thead>
<tr>
<th>Geographic Scope:</th>
<th>Global</th>
</tr>
</thead>
</table>

### Applicant Eligibility Criteria
- Only organizations are eligible to receive grants, not individuals or medical practice groups.
- For projects offering continuing education credit, the requesting organization must be accredited.

## III. Requirements

<table>
<thead>
<tr>
<th>Date RFP Issued</th>
<th>22 November 2022</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clinical Area</td>
<td>Gene Therapy- Rare Disease</td>
</tr>
<tr>
<td>Specific Area of Interest for this RFP:</td>
<td>Projects that will be considered for support will focus on independent medical education initiatives that will result in the measurable improvement of the medical and scientific understanding of gene and gene-modified cell therapies to help prepare multidisciplinary teams for the integration of gene and gene-modified cell therapies into the treatment armamentarium of eligible patients with a Rare Disease. Proposals tailored to a specific rare disease or group of rare diseases will <strong>not</strong> be considered.</td>
</tr>
<tr>
<td>Target Audience:</td>
<td>Members of multidisciplinary care teams for gene and gene modified cell therapies including but not limited to Pharmacists, Specialty Nurses, Genetic Counsellors, Medical Geneticists, and other Physicians.</td>
</tr>
</tbody>
</table>
| Expected Approximate Monetary Range of Grant Applications: | - Individual projects requesting up to $50,000 will be considered. The estimated total available budget related to this RFP is $150,000.  
- The amount of the grant Pfizer will be prepared to fund for any project will depend upon the expert review panel’s evaluation of the proposal and costs involved and will be stated clearly in the grant agreement. |
### Key Dates:
- **RFP release date:** 22 November 2022
- **Application Deadline:** 30 January 2023
- **Review of Applications by Expert Review Panel:** March 2023
- **Anticipated Full Proposal Notification Date:** March/April 2023
- **Grants distributed following execution of fully signed Grant Contract:**
- **Anticipated Project Start Date:** June 2023

### How to Submit:
- Please go to [www.cybergrants.com/pfizer/knowledge](http://www.cybergrants.com/pfizer/knowledge) and sign in. First-time users should click “Create your password”.
- Click the “Start A New Knowledge Gap Application” button.
- In the application:
  - For the question “What type of request are you submitting?” select Response to a Request for Proposal (RFP)
  - For the question “Are you replying to a Request for Proposal (RFP) as part of the Competitive Grant Program?” select Yes
  - Select the following Competitive Grant Program Name: **2023 RD G - ASGCT Gene Education**
  - Select the following Primary Area of Interest: Gene Therapy
- **Requirements for submission:**
  - Complete all required sections of the online application and upload your project proposal (see Appendix) in the General RFP Submission field.
  - If you encounter any technical difficulties with the website, please click the “Technical Questions” link at the bottom of the page.

**IMPORTANT:** Be advised applications submitted after the due date will not be reviewed by the committee.

### Questions:
- If you have questions regarding this RFP, please direct them in writing to the Pfizer Grant Officer, Amanda Stein ([amanda.j.stein@pfizer.com](mailto:amanda.j.stein@pfizer.com)) with the subject line “**2023 RD G - ASGCT Gene Education**”

### Grant Agreements:
- If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click [here](#) to view the core terms of the agreement.
- Pfizer has drafted the terms of these agreements to be balanced and reasonable and to further the goals of both parties. Negotiating grant agreements requires significant resources, so please ensure that your institution (including your legal department) is able and willing to abide by these terms before proceeding with submission of your application as they will need to be accepted in their entirety.
### Review and Approval Process

- A specific grant program RFP uses an expert review panel (ERP) to make final grant decisions.
- The panels are comprised of professionals from the medical community with advanced degrees and expertise in particular clinical areas, or specific needs of a geographic region/learner group, or expertise in research, continuing professional development or quality improvement.

### Mechanism by which Applicants will be Notified:

- All applicants will be notified via email by the dates noted above.
- Applicants may be asked for additional clarification during the review period.
# Proposal Requirements

Applications will be accepted via the online portal. The main section of the full proposal document should be no longer than 12 pages in length (12-point font and 1-inch margins) excluding Organization Detail, References, and Budget Narrative. The full proposal should be uploaded in the portal as a single document.

## Goals and Objectives
- Briefly state the overall goal of the project. Also describe how this goal aligns with the focus of the RFP and the goals of the applicant organization(s).
- List the *overall* objectives you plan to meet with your project both in terms of learning and expected outcomes. Objectives should describe the target population as well as the outcomes you expect to achieve as a result of conducting the project.

## Assessment of Need for the Project
- Please include a quantitative baseline data summary, initial metrics (e.g., quality measures), or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area. Describe the source and method used to collect the data. Describe how the data was analyzed to determine that a gap existed. If a full analysis has not yet been conducted, please include a description of your plan to obtain this information.

## Target Audience
- Describe the primary audience(s) targeted for this project. Also indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population.

## Project Design and Methods
- Describe the planned project and the way it addresses the established need.
- If your methods include educational activities, please describe succinctly the topic(s) and format of those activities.
- Please describe how the project submitted supports diversity, equity, and inclusion either through the study population targeted or through the project team that is directly involved.

## Innovation
- Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects or materials already developed.
- Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project.
<table>
<thead>
<tr>
<th>Evaluation and Outcomes</th>
<th>In terms of the metrics used for the needs assessment, describe how you will determine if the practice gap was addressed for the target group. Describe how you expect to collect and analyze the data.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Quantify the amount of change expected from this project in terms of your target audience.</td>
</tr>
<tr>
<td></td>
<td>Describe how the project outcomes will be broadly disseminated.</td>
</tr>
<tr>
<td>Anticipated Project Timeline</td>
<td>Provide an anticipated timeline for your project including project start/end dates</td>
</tr>
<tr>
<td>Additional Information</td>
<td>If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here</td>
</tr>
<tr>
<td>Organization Detail</td>
<td>Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project. Letters of support from partner organizations will be required at the Full Proposal stage only and should not be included with the LOI.</td>
</tr>
<tr>
<td>Budget Detail</td>
<td>While estimating your budget please keep the following items in mind:</td>
</tr>
<tr>
<td></td>
<td>o General organizational running costs such as insurances, heating, lighting, rent, building maintenance may be included. Pfizer does not provide funding for capital purchases (infrastructure expenses such as equipment, purchases of software or software licenses, technology or bricks and mortar). Equipment hire/leasing is acceptable and may be included in project budget. The inclusion of these costs cannot cause the amount requested to exceed the budget limit set forth in the RFP.</td>
</tr>
<tr>
<td></td>
<td>o The inclusion of these costs cannot cause the amount requested to exceed the budget limit set forth in the RFP.</td>
</tr>
<tr>
<td></td>
<td>o It should be noted that grants awarded through GMG cannot be used to purchase Pfizer therapeutic agents (prescription or non-prescription).</td>
</tr>
<tr>
<td></td>
<td>Pfizer maintains a company-wide, maximum allowed overhead rate of 28% for independent studies and projects. Please <a href="#">click here</a> for details.</td>
</tr>
