

# Pfizer Independent Medical Education RFP

## *Updates in Post-COVID Conditions: Potential Causes, Assessment, Testing, Management, and Ongoing Research*

Competitive Grant Program –Pfizer Internal Review Process

### Overview

Through this RFP it is our intent to support educational programs on post-COVID conditions targeting primary care providers. These programs should aim to equip primary care providers with the necessary knowledge and skills to identify, diagnose, and manage post-COVID conditions effectively, with a particular interest in programs that address health disparities in the care of marginalized and underserved communities.

### Geographic Scope

United States

### Project Types and Area of Interest

Program objectives may include, but are not limited to, the following:

- Explain testing and assessment of post-COVID conditions, identify potential causes, and understand its various clinical presentations and potential complications
- Outline the management of post-COVID conditions, including symptom management, referral pathways, pharmacological and non-pharmacological treatments, and ongoing monitoring and follow-up of patients
- Describe strategies to address health disparities such as culturally responsive care, health literacy, community resources, and advocacy for equitable access to care for all patients with post-COVID conditions
- Summarize the latest updates in the ongoing research into the potential causes, assessment, testing, and management of post-COVID conditions

All activity types will be considered, with an emphasis on innovative programs that are designed to meet the needs of a large primary care provider audience.

### Key Milestones

- Application submission deadline: **August 24, 2023**
- Anticipated decision notification date: **September 28, 2023**
- Anticipated project start date: **on or after November 1, 2023**

### Funding Range and Project Length

Approximately 1-2 years.

## I. Eligibility

---

### Geographic Scope:

- United States

### Applicant Eligibility Criteria

- Only organizations are eligible to receive grants, not individuals or medical practice groups.
- The following may apply: medical, dental, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional associations and medical societies; medical education companies; and other entities with a mission related to healthcare professional education and/or healthcare improvement.
- If the project involves multiple departments within an institution and/or between different institutions / organizations / associations. All institutions must have a relevant role and the requesting organization must have a key role in the project.

## II. Requirements

---

### Date RFP Issued

- July 19, 2023

### Clinical Area

- COVID-19

### General Area of Interest for this RFP:

Through this RFP it is our intent to support educational programs on post-COVID conditions targeting primary care providers. These programs should aim to equip primary care providers with the necessary knowledge and skills to identify, diagnose, and manage post-COVID conditions effectively, with a particular interest in programs that address health disparities in the care of marginalized and underserved communities.

Primary care providers play a critical role in identifying, assessing, and managing patients with post-COVID conditions. To effectively do so, they must be equipped with a comprehensive understanding of the clinical presentation and overall impact of post-COVID conditions. The management of post-COVID conditions is still evolving and primary care providers need to stay up to date with ongoing research and the latest evidence-based approaches to care to ensure optimal patient outcomes.

In addition, post-COVID conditions disproportionately affects marginalized and underserved communities. Primary care providers must be able to recognize the social determinants of health that impact outcomes and have strategies to address these health disparities.

Program objectives may include, but are not limited to, the following:

- Explain testing and assessment of post-COVID conditions, identify potential causes, and understand its various clinical presentations and potential complications
- Outline the management of post-COVID conditions, including symptom management, referral pathways, pharmacological and non-pharmacological treatments, and ongoing monitoring and follow-up of patients
- Describe strategies to address health disparities such as culturally responsive care, health literacy, community resources, and advocacy for equitable access to care for all patients with post-COVID conditions

- Summarize the latest updates in the ongoing research into the potential causes, assessment, testing, and management of post-COVID conditions

All activity types will be considered, with an emphasis on innovative programs that are designed to meet the needs of a large primary care provider audience

*It is not our intent to support clinical research projects. Projects evaluating the efficacy of therapeutic or diagnostic agents will not be considered.*

### Target Audience

- Primary Care Providers

### Expected Approximate Monetary Range of Grant Applications:

- Individual projects requesting up to \$300,000 will be considered. The estimated total available budget related to this RFP is \$900,000.
- Award amounts include direct costs, institutional overhead costs (capped at 28% per Pfizer policy), and indirect costs.

### Key Dates:

- RFP release date: **7/19/2023**
- Grant Application due date: **8/24/2023**  
Please note the deadline is 23:59 Eastern Standard Time (e.g., New York, GMT -5).
- Anticipated Grant Award Notification Date: **9/28/2023**
- Grants will be distributed following a fully executed agreement.
- Anticipated Project Start and End Dates: **on or after November 1, 2023**

### How to Submit:

Note: Please read this section carefully since applications submitted not following these instructions will not be accepted and will be cancelled

- Please go to [www.cybergrants.com/pfizer/knowledge](http://www.cybergrants.com/pfizer/knowledge) and sign in. First-time users should click “Create your password”. [Note: there are individual portals for each grant application type. Please be sure to use the URL above.]
- Click the “Start A New Knowledge Gap Application” button.
- In the application:
  - For the question “What type of request are you submitting?” select Response to a Request for Proposal (RFP)
  - For the question “Are you replying to a Request for Proposal (RFP) as part of the Competitive Grant Program?” select Yes
- Select the following Competitive Grant Program Name: **2023 VAC US Updates in Post-COVID Conditions IME**
- Select the following Primary Area of Interest: **Antivirals – COVID-19**
- Requirements for submission:  
Complete all required sections of the online application and upload your project proposal (see Appendix) in the General RFP Submission field.
- If you encounter any technical difficulties with the website, please click the “Technical Questions” link at the bottom of the page.

**IMPORTANT:** Be advised applications submitted after the due date will not be reviewed.

### Questions:

- If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Derek Warnick ([derek.warnick@pfizer.com](mailto:derek.warnick@pfizer.com)), with the subject line “**2023 VAC US Updates in Post-COVID Conditions IME.**”

### Grant Agreements:

- If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click [here](#) to view the core terms of the agreement.
- Pfizer has drafted the terms of these agreements to be balanced and reasonable and to further the goals of both parties. Negotiating grant agreements requires significant resources, so please ensure that your institution (including your legal department) is able and willing to abide by these terms before proceeding with submission of your application as they will need to be accepted in their entirety.
- Payment will only be made to requesting Institution.

### Review and Approval Process

- Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.

### Mechanism by which Applicants will be Notified:

- All applicants will be notified via email by the dates noted above.
- Applicants may be asked for additional clarification during the review period.

## About Pfizer Global Medical Grants

---

Pfizer Global Medical Grants (GMG) supports the global healthcare community’s independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer’s medical and/or scientific strategies.

Pfizer’s GMG competitive grant program involves a publicly posted general Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the knowledge gaps as outlined in the specific RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.

## Appendix

---

### General RFP Submission Requirements

Applications will be accepted via the online portal listed in the [How to Submit](#) section. Project Proposals should be single-spaced using Calibri 12-point font and 1-inch margins. Note there is a 15-page limit exclusive of references. When uploading your Project Proposal please ensure it addresses the following sections:

#### Goals and Objectives

- Briefly state the overall goal of the project.
- List the objectives you plan to meet with your project, in terms of learning and expected outcomes.

#### Needs Assessment for the Project

- Include a description of your organization's needs assessment for this proposed project which may include a quantitative baseline data summary, initial metrics, or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area.

#### Target Audience

- Describe the primary audience(s) targeted for this project. Indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population.

#### Project Design and Methods

- Describe the planned project, the educational approach, and the way the planned methods address the established need.

#### Innovation

- Explain what measures you have taken to assure that this project is original and does not duplicate other projects or materials already developed. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions.

#### Evaluation and Outcomes

- In terms of the metrics used for the needs assessment, describe how your organization will determine if the gap was addressed for the target group. Identify the sources of data your organization anticipates using to make the determination. Describe how your organization is expected to collect and analyze the data. Explain the method used to control for other factors outside this project (e.g., use of a control group or comparison with baseline data). Quantify the amount of change expected from this project in terms the target audience. Describe how your organization will determine if the target audience was fully engaged in the project.

#### Dissemination Plan

- Describe how the project may have extended benefit beyond the grant. Will the teaching materials be made available to others to use? Will there be tools or resources that are made publicly available beyond the initial project. Describe how the project outcomes might be broadly disseminated.

#### Anticipated Project Timeline

- Provide an anticipated timeline for your project including project start/end dates.

### Additional Information

- If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here

### Organization Detail

- Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project.

### Budget Detail

- Please include a budget narrative that describes in greater detail the line items specified in the budget submitted within the application
- While estimating your budget please keep the following items in mind:
  - Independent Medical Education Grants awarded by GMG cannot be used to purchase therapeutic assets (prescription or non-prescription).
  - Overhead rates of up to 28% of the total proposed project budget may be supported by Pfizer. Please [click here](#) for details.
