

Pfizer Independent Medical Education Grant Request for Proposals

Competitive Grant Program – Pfizer Internal Review Process

Optimizing Care for Patients with HR+/HER2- or HER2+ (regardless of hormonal status) metastatic Breast Cancer (mBC)

Overview

This competitive program seeks to increase the ability of healthcare professionals to holistically improve the care of HR+/HER2- or HER2+ (regardless of hormonal status) mBC patients.

Geographic Scope/Location of Project

Spain only

Project Types and Area of Interest

Potential applicants are encouraged to identify and address the educational needs, barriers, and gaps for healthcare professionals to enhance comprehensive care for mBC patients. This may include:

- Educational programs to increase understanding of drug-drug interactions in the selection of mBC treatment(s).
- Educational programs, tools, and/or resources for considering individualized patients' needs and patient profiles to support clinical decisions.
- Patients' needs assessment to tackle unaddressed challenges beyond pharmacological treatment.

Key Milestones

Funding Range and Project Length

Individual projects requesting up to EUR 20,000.00 will be considered. Maximum project length is 18 months.

I. Eligibility

Geographic Scope/Location of Project/Study

- Spain only

Applicant Eligibility Criteria

- The following may apply: medical, nursing, allied health, and/or pharmacy professional schools; healthcare institutions (both large and small); professional organizations/medical societies; medical education companies; patient advocacy organizations, and other entities with a mission related to healthcare professional education and/or healthcare improvement.
- Multi-center projects or collaborations between Health Care professionals and patient advocacy groups are allowed.
- Only organizations are eligible to receive grants, not individuals or medical practice groups (i.e., an independent group of physicians not affiliated with a hospital, academic institution, or professional society).
- If the project involves multiple departments within an institution and/or between different institutions /organizations/associations, all institutions must have a relevant role and the requesting organization must have a key role in the project.
- The applicant must be the project/program lead or an authorized designee of such individual (e.g., project/program lead's grant coordinator).
- The project/program lead must be an employee or contractor of the requesting organization.
- For projects offering continuing education credit, the requesting organization must be accredited.
- Requesting organization must be legally able to receive award funding directly Pfizer International LLC (66 Hudson Boulevard East New York, NY 10001, USA). We strongly recommend that applicants confirm this with their organization or institution prior to submitting an application. Grants awarded to organizations that are subsequently found to be unable to accept funding directly from Pfizer International LLC may be subject to rescission.

II. Requirements

Primary Area of Interest

- HR+/HER2- or HER2+ (regardless of hormonal status) metastatic Breast Cancer

General Area of Interest for this RFP

It is not our intent to support clinical research projects. Projects evaluating the efficacy of therapeutic or diagnostic agents will not be considered.

This competitive grant program seeks to support independent medical education activities focused on improving the comprehensive care of patients with HR+/HER2- or HER2+ (regardless of hormonal status) mBC, taking into consideration comorbidities, polypharmacy, quality of life, and patients' needs.

Projects that will be considered for grant support will focus on one or more of the following:

- Increasing understanding of drug-drug interactions in the selection of mBC treatment and the monitoring requirements in patients with comorbid conditions and polypharmacy.
- Incorporation of patients' goals and quality of life during the clinical decision-making process.
- Education on individualized patients' needs, patients' profiles, and health status to support clinical decisions.
- Discussing unmet needs beyond pharmacological interventions, focusing on holistic approaches for treating mBC patients: sexuality, dermo-aesthetic, nutrition, psychology and workplace tasks.
- Applications must be sent in English, but development of content in Spanish is encouraged.

Examples of educational formats that will be considered under this RFP include, but are not limited to:

- Educational sessions.
- Online resources, newsletter articles, training courses, webinars.
- Downloadable tools or clinical practice guides.
- Social media content.
- Videos, podcasts, infographics, animations

Target Audience

- Healthcare professionals focused on breast cancer (oncologists, specialty nurses, pharmacists) and other healthcare professionals involved in the care and treatment of people with mBC.

Expected Approximate Monetary Range of Grant Applications:

- Individual projects requesting up to EUR 20,000.00 will be considered. The estimated total available budget related to this RFP is EUR 75,000.00.
- Award amounts include direct costs, institutional overhead costs (capped at 28% per Pfizer policy), and indirect costs.
- The amount of the grant Pfizer will be prepared to fund for any project will depend upon the expert review panel's evaluation of the proposal and costs involved and will be stated clearly in the grant agreement.

Timeline

IMPORTANT: Be advised applications submitted after the due date will not be reviewed.

* Please note the deadline is 23:59 Eastern Standard Time (e.g., New York, GMT -5).

III. Submissions

How to Submit

IMPORTANT: Please read this section carefully since applications submitted not following these instructions will not be accepted and will be cancelled.

- Please go to www.cybergrants.com/pfizer/knowledge and sign in.

- Note: there are individual portals for each grant application type. Please be sure to use the URL above.
- First-time users should click “Create your password”.
- Click the button **“Start a New Knowledge Gap Application”**.
- Requirements for submission:
 - **Complete all required sections of the online application and upload your project proposal** (see [Appendix](#)) in the General RFP Submission field.
- If you encounter any technical difficulties with the website, please click the “Technical Questions” link at the bottom of the page.
- In the application:
 - For the question **“Competitive Grant?”** select **“Yes”**
 - Select the following **Primary Area of Interest:** Metastatic Breast Cancer
 - Select the following **Competitive Grant Program Name:** 2025 Onc Spain Breast IME

Questions

- If you encounter any technical difficulties with the website, please click [here](#) or the “Technical Questions” link at the bottom of the page in cybergrants.
- Please click [here](#) to view “Frequently Asked Questions” regarding the Competitive Grant Program.
- If you have questions regarding this RFP, please direct them in writing to the Grant Officer, Nicola Fenderico nicola.fenderico@pfizer.com, with the subject line “March 2025 Onc Spain Breast IME .”

Mechanism by which Applicants will be notified

- All applicants will be notified via email by the dates noted above.
- Applicants may be asked for additional clarification during the review period.

Review and Approval Process

- Grant requests received in response to a general RFP are reviewed by Pfizer to make final grant decisions.

Grant Agreements

- If your grant is approved, your institution will be required to enter into a written grant agreement with Pfizer. Please click [here](#) to view the core terms of the agreement.
- Under Pfizer's competitive grant program, modifications to grant agreements will not be reviewed unless a genuine conflict exists as between applicable law and the terms of the relevant grant agreement. Applicant is encouraged to share the core terms with counsel for approval prior to submitting an application.
- Except where prohibited by applicable law and, in any case, subject to review by Pfizer Legal, payment of grant funding may only be paid to the grantee organization.

About Pfizer Global Medical Grants & Partnerships

Pfizer Global Medical Grants & Partnerships (GMGP) supports the global healthcare community's independent initiatives (e.g., research, quality improvement, or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies.

Pfizer's GMGP competitive grant program involves a publicly posted general Request for Proposal (RFP) that provides detail regarding a general area of interest, sets timelines for review and approval, and uses an internal Pfizer review process to make final grant decisions. Organizations are invited to submit an application addressing the knowledge gaps as outlined in the specific RFP.

For all independent medical education grants, the grant requester (and ultimately the grantee) is responsible for the design, implementation, and conduct of the independent initiative supported by the grant. Pfizer must not be involved in any aspect of project development, nor the conduct of the independent education program.

Appendix

IMPORTANT: RFP Submission Requirements

Applications will be accepted via the online portal listed in the [How to Submit](#) section. Project Proposals should be single-spaced using Calibri 12-point font and 1-inch margins. Note there is a 15-page limit exclusive of references. When uploading your Project Proposal please ensure it addresses the following sections:

Goals and Objectives

- Briefly state the overall goal of the project.
- List the objectives you plan to meet with your project, in terms of learning and expected outcomes.

Needs Assessment for the Project

- Include a description of your organization's needs assessment for this proposed project which may include a quantitative baseline data summary, initial metrics, or a project starting point (please cite data on gap analyses or relevant patient-level data that informs the stated objectives) in your target area.

Target Audience

- Describe the primary audience(s) targeted for this project. Indicate whom you believe will directly benefit from the project outcomes. Describe the overall population size as well as the size of your sample population.

Project Design and Methods

- Describe the planned project, the educational approach, and the way the planned methods address the established need.

Innovation

- Explain what measures you have taken to assure that this project is original and does not duplicate other projects or materials already developed. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions.

Evaluation and Outcomes

- In terms of the metrics used for the needs assessment, describe how your organization will determine if the gap was addressed for the target group. Identify the sources of data your organization anticipates using to make the determination. Describe how your organization is expected to collect and analyze the data. Explain the method used to control for other factors outside this project (e.g., use of a control group or comparison with baseline data). Quantify the amount of change expected from this project in terms the target audience. Describe how your organization will determine if the target audience was fully engaged in the project.

Dissemination Plan

- Describe how the project may have extended benefit beyond the grant. Will the teaching materials be made available to others to use? Will there be tools or resources that are made publicly available beyond the initial project. Describe how the project outcomes might be broadly disseminated.

Anticipated Project Timeline

- Provide an anticipated timeline for your project including project start/end dates.

Additional Information

- If there is any additional information you feel Pfizer should be aware of concerning the importance of this project, please summarize here.

Organization Detail

- Describe the attributes of the institutions / organizations / associations that will support and facilitate the execution of the project and the leadership of the proposed project. Articulate the specific role of each partner in the proposed project.

Budget Detail

- Please include a budget narrative that describes in greater detail the line items specified in the budget submitted within the application.
- While estimating your budget please keep the following items in mind:
 - Independent Medical Education Grants awarded by GMGP cannot be used to purchase therapeutic assets (prescription or non-prescription).
 - Overhead rates of up to 28% of the total proposed project budget may be supported by Pfizer. Please click [here](#) for details. General organizational running costs such as legal fees, insurance, heating and lighting etc. should be included in an Institutional Overhead (if required). These costs are not specific to a grant request and therefore, should not appear as line items in budgets. However, costs that are specific to the study (e.g., some countries require insurance to be taken out on a per-study basis for clinical research) would be acceptable to be included as line items.

Required Documents

- Project Plan/Proposal or Meeting Agenda
