

AMPLIFY HUMANITY

Amplify Humanity Project

This year, to amplify our shared humanity at the intersection of human experience and oncology research, we present a visually stunning quilt featuring portraits of advocacy partners and leaders. Artist Joseph Thatcher, a trained oncology nurse and Pfizer colleague, created this powerful tapestry to **symbolize the invaluable contributions and resilience of the many people who advocate for breakthroughs in cancer knowledge and treatment.**

About the Artist

Amplify Humanity Project

The goal of the quilt is to help raise awareness of our advocacy partners and to support the Oliver Patch Project.

Advocacy Organizations Who Volunteered to Host the Quilt

The Oliver Patch Project:

Donate or learn more about how the Oliver Patch Project supports children and teens battling cancer and mental health challenges.
