patients treated with approved Pfizer Oncology therapies since 2006

\$4.563 BILLION IN REVENUE

generated from oncology medicines in 2016

Our Partnerships

SCIENTIFIC AND ACADEMIC PARTNERSHIPS

Pfizer Oncology believes that great science comes through collaboration. Our Centers for Therapeutic Innovation demonstrate our deep commitment to establishing close collaborations with leading academic medical centers, U.S. government agencies, foundations and other industry partners to find new ways to translate ground-breaking research into new and important therapies for patients.

- Since 2014, Pfizer has provided more than **\$35 million** to unique breast cancer research grant partnerships.

CANCER COMMUNITY PARTNERSHIPS

- We know that cancer is a disease that no one should fight alone. That's why Pfizer Oncology not only aims to bring valuable treatments to patients, but also to cultivate community relationships for the collective good.
- Together with the broader cancer community, we support patients through numerous sponsored initiatives focused on education and empowerment, supporting caregivers and loved ones, elevating public awareness of various cancers, and rallying local and global communities to support cancer patients.
