## **BICILLIN<sup>®</sup> SYRINGE ENHANCEMENT** *(penicillin G benzathine suspension)*

March 3, 2011

Dear Trading Partners,

King Pharmaceuticals, Inc. is pleased to announce an enhancement to the Bicillin<sup>®</sup> L-A 2,400,000U 4mL syringe. A protective cap has been added over the rubber stopper on each syringe in order to prevent the rubber stopper from being dislodged. The change for all other SKU's of Penicillin G Procaine Injectable Suspension, Bicillin<sup>®</sup> C-R and Bicillin<sup>®</sup> L-A was previously announced on August 11, 2009.

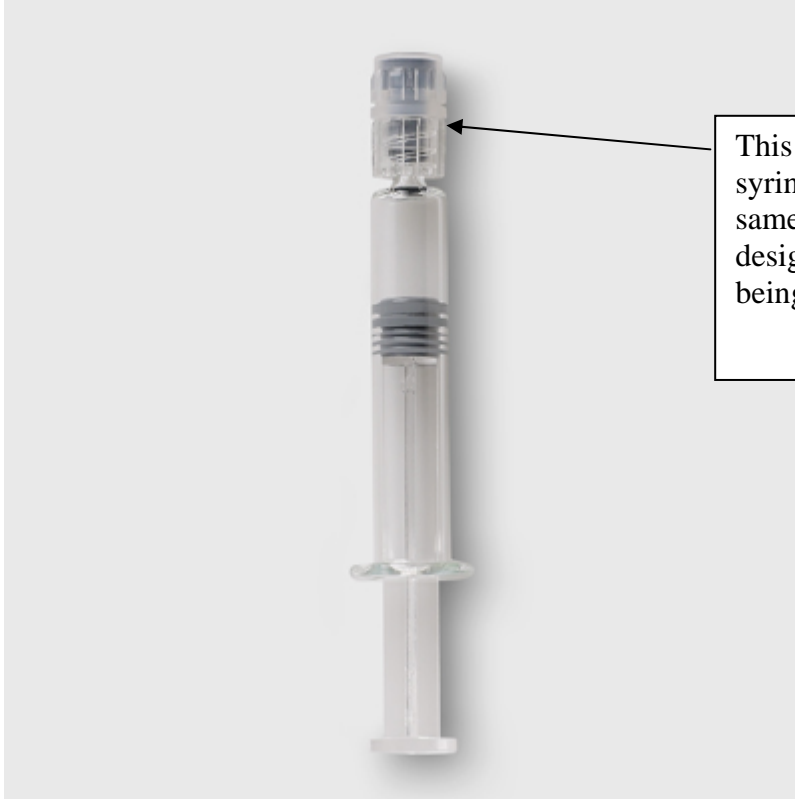

The change does not affect pricing, packaging or product dimensions. This new feature will begin shipping within the next few days.

## BICILLIN® SUSPENSION SYRINGE

This plastic cap is the new part of this syringe. It goes over the stopper that is the same as the current design. The new design will prevent the rubber tip cap from being dislodged from the luer fitting.
